

THE GLEICHEN CALL

VOLUME 43 NO. 34

Authorized as second class mail, GLEICHEN, ALBERTA, WEDNESDAY NOVEMBER 8, 1950
Post Office Department, Ottawa.

SUBSCRIPTION \$2.00 PER YEAR

Armistice Day Service Next Saturday Morning

Next Saturday the annual Armistice Service will be held in Gleichen, beginning at 10 a.m. in the Community Hall. At this writing it had not been decided who would be the speakers for the occasion.

In the past the hall was always well filled with people from the town and district and it will likely be filled again Saturday morning.

The following will be the order of procedure.

The Legioners will meet at the Legion Hall at 9:30 a.m.

The parade will leave the Legion Hall at 9:45.

Arrive at the Community Hall and be seated by 10 o'clock.

Service 10:00 to 10:55.

All will gather at the cenotaph at 11:00 where the regular cenotaph services will be observed.

Will everyone be laying a wreath so that they have a place.

WEDDINGS

CICHACKI-MURRAY

The marriage of Mr. Andy Cichacki and Janet Murray, only daughter of Mr. and Mrs. M. Murray, took place last Thursday evening at the United Church Manse, with Rev. Wm. Morrison officiating. Mrs. T. Hasketh was matron-of-honor and Mr. J. Cichacki was best man. Only the immediate relatives were present at the ceremony. After the wedding a reception was held at the residence of the bride and groom. Mr. and Mrs. Cichacki will make their home in Gleichen.

GOVE-BOLINGER

St. Stevens Anglican Church, Calgary, was the scene of a quiet wedding on Friday, October 27th, when Kenneth B. Gove of Calgary was united in marriage with Mildred L. Bolinger, only daughter of Mr. and Mrs. M. Bolinger of Gleichen. At present Mr. and Mrs. Gove are residing in Calgary.

McHUGH-DELOIRNE

On October 28th the wedding of Ronald, son of Clarence McHugh, Gleichen and Pearl Delorme of Carleton Place, Ont., took place in the Holy Trinity Church at Cluny with Rev. Father Trappier officiating.

In the evening a reception was held in the evening at the home of the bride which was fittingly replied to by the groom. Mr. W. P. B. Pugh, on behalf of the Blackfoot Reserve welcomed the bride into the hall. Pictures of the happy couple cutting the wedding cake was taken by Mr. Pugh.

After the luncheon, Mr. Roppel played the piano and the guests sang songs fitting the happy union. This was followed by a dance which was enjoyed until the wee sma' hours.

The honored guests were Rev. Trappier; Mr. and Mrs. Pugh; Mr. and Mrs. Rupert Hunter; Mr. and Mrs. A. Bogstie; Mr. and Mrs. S. Hampton; Mr. and Mrs. Côté; Dr. and Mrs. Reopel; Mrs. S. Murray; Corp. and Mrs. Yates; Mr. and Mrs. Bremner; Mr. and Mrs. Konechuh and daughter and Mrs. Bert James. The bride's relatives Mr. and Mrs. G. Delorme.

Remembrance Day

For too many of us Remembrance Day comes only once a year—when ever, perhaps a sense of loss presents itself. The costs of war are equally borne. That is why, some people will tell you, the efforts to eradicate it are not equally shared.

But that is not the whole story. We all read, or hear, what sacrifices have been made to win for us opportunity to merge peace with freedom in a world way of life. But our reading and hearing is often too momentary. We do not live with the sacrifices day in and day out, as those who made them do.

And so our papers reflect a strangely two-sided picture every time Remembrance Day rolls around. There is the two minutes of silence for remembrance, and the record of hours and millions spent in what sometimes looks like an international effort at suppression. There are photographs

of thousands paying tribute to the unknown soldier, and the numerous reports of known soldiers paying tribute for the necessities of life partly because the rest of us hurried so fast to get back to normalcy. This day is becoming more and more a day of self searching for nations and individuals. It is now a day supercharged with the memories of war. What we now know is that mankind needs more than a frightening lesson to start it truly peaceward. Among many things, it needs in each one of its members a continuing and ever quick awareness of what others have given—a sense of indebtedness and a determination to make good on the debt.

O Lord, this day we turn again
To Thee for guidance in this hour;
That in the hush of silent prayer
Will come to each, new strength
And power
To build a world free from pain
Of wars and strife and hopeless
days,
Because we, too, have pledged our
lives
To find your plan in all our ways.
Re-kindled now the flame of peace
That grows, as men and nations see
Their self and greed become their god
When this is the sin—they serve not
Thee.

O Father, make these cold hearts
burn
With sick remorse that will not
cease
Until we learn that wars will end
Only when hearts have found Your
Peace.

Town & District

Fred Habke left for Germany last week to visit relatives.

The local school teachers attended the meeting of teachers held in Calgary last week.

Walter Riddell who has not been in very good health has been in Calgary receiving medical attention.

Last Saturday was poppy day and bright and early the sales girls were out on the street selling poppies. They did well and almost every body bought one.

Kipps Schmidt and a friend were down for a day or two shooting last week. They had good luck and took some enough birds to keep them eating for a few days.

Bob Brown was in Edmonton last week playing in the carpiel. He did not have very good luck and won only one game so was soon out of the rink. Bob's rink consisted of Jim Miller, Cam Brown and Eggs Asmundson.

T. B. Northfield, optometrist, will be in Gleichen Friday afternoon, November 10, for the purpose of examining eyes, etc.

Claud Roueche, Mrs. J. Roueche and son Jimmy spent the weekend in Medicine Hat visiting Buster and Jimmy Roueche. On the way to the Hat they picked up Pauline at Brooks and they really had a family reunion.

Mr. and Mrs. Umbrite left for Ontario by plane last week. While in the east they will buy a new car and then motor to California to visit their daughter Ruth, her husband and family.

A botched printing job such as we were shown the other day is usually done in a hurry by an outside printing firm who was not able to submit a proof to the buyer of the printing. The result is that the customer uses the printed matter much against his will, and possibly to his detriment so far as his customers are concerned, all because the printing was done by a printer at a distance, and the job was not checked before printing. The home printer will always gladly submit proofs of all work so that it may be carefully checked for errors, and altered for appearance if deemed advisable. While any desired additions or deductions may be freely made. This results in a satisfactory job of printing, and pleases all concerned. See that all your printing bears the imprint of your local printer.

ST. ANDREW'S CHURCH

Sunday, November 12th.
Holy Communion 11:30 a.m.
Rev. D. Houghton, B. A., Incumbent.

United Church Ladies Meet

Mrs. M. W. Bolinger was the hostess to the Women's Association of the United Church, last Wednesday afternoon, in her home. There were 17 ladies present. Much business was accomplished. The final arrangements for the Bazaar Tea and home cooking were completed. This will be held in the Club Room of the Recreation Centre. The following are the convenors: Tea—Mrs. B. Bliek and Mrs. T. C. Brown. Mrs. R. W. Brown is to look after asking the girls to help wait on tea tables. Apron table—Mrs. M. Bolinger and Mrs. Farquharson. Bake table—Mrs. E. Taylor and Mrs. C. R. McIntyre. Parcel Post—Mrs. N. A. Riddell. Novelties—Mrs. G. Lloyd and Mrs. A. Baln. Pillow cases—Mrs. R. Hunter and Mrs. W. Pugh. Flour sack table—Mrs. E. Bolinger and Mrs. W. Pettit. Candy table—Mrs. Morrison. Advertising for bazaar—Mrs. B. Holt. After a short discussion it was decided to send a donation of \$10 to the Marmata Leadership Training School at Marmata, B. C. After the meeting a delicious lunch was served by the hostess and lunch committee and a pleasant time was enjoyed.

Alberta is planning to have 3,000 miles of hard surfaced highways within the next five years. This was stated by Hon. D. B. MacMillan, minister of public works, when addressing a meeting of the Alberta Motor Association, held recently. The minister discussed the government's road building program for the current year. He said the idea was to spread the available money as equitably as possible. For the 1950 program the department had planned 600 miles of grading, with travelling and regravelling of 827 miles and hard surfacing of 307 miles. At present, Alberta has 1,000 miles of hard surface highways, he said. Referring to the 1951 program, the minister said it is anticipated that 700 miles of roadway will be built. He said that 20 miles of the Edmonton-Jasper road were paved this year and another 20 miles will be done next year. Some 80 miles of highway have been built in the Peace River

and further work will be done next year. The minister also said it is planned to build a cross country highway into the Peace River country.

Life Depends On Water

All the water available to man is derived from the condensed vapor of the atmosphere. An important step forward in the science of hydrology (which is concerned with the properties and distribution of water) was taken in recent years. It was recognition of the fact that the distribution and transport of water obey the fundamental law of equilibrium. This relationship is called the hydrologic cycle. It represents the balance of water that exists between (1) oceans, lakes, streams and underground waters, (2) the solid part of the earth, and (3) the atmosphere.

Water is ceaselessly circulating from the earth to the atmosphere and back to the earth again. Evaporating from ponds, streams, lakes, rivers and oceans, it forms water vapor in the air; it is condensed to form clouds, and later falls back to the earth as rain.

Rain which falls on the land is disposed of in some or all of four ways; some evaporates directly, some is held in the surface soil and subsequently evaporated by plants, some filters through the top layers and passes to the rocky strata beneath and some runs off into rivers and streams. The amount of rainfall available for the good of humanity is determined by the temperature, the nature of the land surface, vegetation, and other geographical features.

That part of rainfall that is absorbed by the ground is of very great importance. It sinks down until it joins the vast underground reservoir of water that exists under practically all the earth's surface. It is this ground water, as it is called, that feeds springs and wells and rivers. It furnishes water to plants by capillary action. It dissolves mineral matter out of soil, thus supplying food to plants.

(Continued on last page.)

The only way to get more water

Trains travel faster than you think!

TRAINS TRAVEL FASTER THAN YOU THINK

It is commonly supposed that in collisions between trains and motor vehicles at railway crossings it is the train which strikes the motor car. Reports to the Board of Transport Commissioners for Canada covering the 12-month period ended June 30th last, however reveal that of the 443 accidents occurring in that period, nearly a quarter of them resulted from the motor vehicle—ranging from sleek sedans to modest farm

trucks and even motorcycles—striking the side of locomotive or train. Cases are reported in which the motor vehicle struck the train as far back as five cars behind the engine. One of the reasons for this apparent anomaly is the fact well supported by scientific tests, that trains travel faster than the motorist, who can estimate within the first seconds allowed for him to determine whether or not he can safely make the crossing. It is safer to give the train the benefit of the doubt.

An Historic Building

THE RECENT OPENING OF Britain's new House of Commons was an event of interest not only in that country, but also to people throughout the Commonwealth and the colonies. Built to replace the old Commons chamber which was destroyed by German bombs in 1941, the new building stands upon the same site and closely follows the design of the original structure. When plans for the new building were being discussed, various designs were suggested, and it was also proposed that another site be chosen, but there was an overwhelming opinion in favor of restoring the original rectangular chamber with five rows of benches on either side, which was the scene of British parliamentary debate for so many years.

Table Is Sent From Canada

The new building is constructed mainly from British stone and oak, and while in design it resembles the old structure, modern acoustics, heating, air conditioning and lighting have been installed for the convenience of the members. Most of the furniture has been provided by the countries of the Commonwealth and the colonies. The table of the House was sent from Canada. Australia provided the speaker's chair, while the carved doorways were sent from India and Pakistan. The two traditional dispatch boxes were gifts from New Zealand, South Africa presented chairs for the clerks, and Newfoundland chairs for the Prime Minister's conference table. Other gifts were sent from the colonies.

Arch Is Named For Churchill

The new Commons chamber replaces one which was the scene of many historic debates and was rich in the traditions of the past. In preserving the design and location of the original building it is apparent that there are many who are anxious that this tradition be retained. "We shape our buildings and they shape us" Mr. Churchill said, when speaking in favor of making the new Commons as much as possible like the one which the Germans destroyed. The impressive entrance is made of stone from the original building and has been named the Churchill arch in honor of that great statesman and wartime prime minister. The new building comes into use in troubled and uncertain times, but it is a symbol of recovery from the destruction of war, and the people of the Commonwealth and the colonies share with the people of Britain pride and satisfaction in seeing it restored.

Royal Family Reunion

Two queens and two princesses make a fairly long line of British royalty. At left is Dowager Queen Mary, mother of King George VI; at right is Queen Elizabeth, wife of King George, and in centre, Princess Elizabeth, holding baby Princess Anne. This photo was made after Princess Anne had been formally christened.—Central Press Canadian.

Funny and Otherwise

Having offered a double feature, both pictures definitely of the Class B variety, the manager of the neighborhood movie said to the glum-looking patron belatedly emerging from the theatre, "Well, sir, do you feel that you got your money's worth tonight?"

Countered the customer, "When you want soup, do two bowls of dishwasher satisfy you?"

Our tastes change as we mature. Little girls like painted dolls; little boys like soldiers. When they grow up, girls like the soldiers and the boys go for the painted dolls.

Election Agent: "That was a fine speech our candidate made on the farming question, wasn't it?" Farmer: "It wasn't so bad; but a couple o' nights good rain would have done a sight more good!"

Mother: "Did I see you kissing that young Allen last night?" Beryl: "Well, mother, he told me he had just lost an uncle and I felt sorry for him."

Mother: "If I know anything about that young man he won't have a relative left in a week's time!"

If your husband snores, a sure way to stop him is to run up a lot of bills he can't pay. That will give him insomnia.

On a sentimental pilgrimage to their old home town an elderly couple lingered at a street corner.

"Do you remember, John," the old lady sighed sentimentally, "we always used to meet here when we were courting?"

"Yes, my dear," said her husband, "but that sign wasn't there then."

And he pointed to the notice which read: Dangerous Corner: Go Slow. 2908

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Ready to Go

The liver should pour out about 2 pints of bile juice into your digestive tract every day. If this bile is not flowing freely, your food may not digest. It may just decay in the digestive tract. Then gas builds up your stomach. You get constipated. You feel sour, sunk and the world looks punk.

It takes those mild, gentle Carter's Little Liver Pills to get these 2 pints of bile flowing freely to make you feel "up and up." Get a package today. Effective in making bile flow freely. Ask for Carter's Little Liver Pills, 36¢ at any drugstore.

"MECCA" OINTMENT
THE FAMILY FRIEND

THE TILLERS

EGG PRODUCTION UP

OTTAWA. — Canadian hens laid 24,741,000 dozen eggs in September, the bureau of statistics reported, compared with 23,442,000 in the same month a year ago.

The rate of egg-laying was up to 1,062 compared with 1,007 eggs per 100 layers and the average number of hens on farms was 25,709 birds compared with 25,701.

A peanut technically is a fruit.

Why annoy your friends and family with a hacking bronchial cough? Just take a few sips of Buckley's Mixture and see how quickly your cough is eased—your head cleared—your breathing made easier. Buckley's Mixture is different. It contains CARRAGEEN, a bland emulsion that soothes and lubricates dry inflamed throat membranes and stops the irritating tickle that keeps you coughing. Try Buckley's today for relief right away.

OVER 25 MILLION BOTTLES SOLD

BUCKLEY'S MIXTURE

Farmers Going Into Hog Production

WINNIPEG. — Frank Baker, field man for a packing company said Saskatchewan farmers seem to be going into hog production so frosted wheat can be used as feed.

Mr. Baker said the percentage of young sows in Saskatchewan packing-house kills has dropped from an average of 45 per cent. to 30 per cent.

The withholding of sows when the breeding season is approaching is probably an indication of farmers' plans for more hog production, he said.

The country of Luxembourg has only about 100 men unemployed.

I Was Nearly Crazy With Fiery Itch—

Until I discovered Dr. D. D. Dennis' amazing fast relief—D. D. Prescription. World popular, this pure, cooling, liquid medication speeds peace and comfort from cruel itching caused by eczema, pimples, rashes, athlete's foot and other itchy troubles. Trial bottle, 35¢. First application checks even the most intense itch or money back. Ask drugists for Dr. D. D. Prescription (ordinary or extra strength).

Government Buys Irrigation Company

REGINA. — Rt. Hon. James G. Gardiner, agriculture minister, announced here the purchase of a large irrigation company in southern Alberta by the dominion government.

Approval to purchase the assets of the company, Canada Land and Irrigation company of Medicine Hat, for \$2,250,000 was given by parliament a year ago but arrangements to get clear title from shareholders have just been completed.

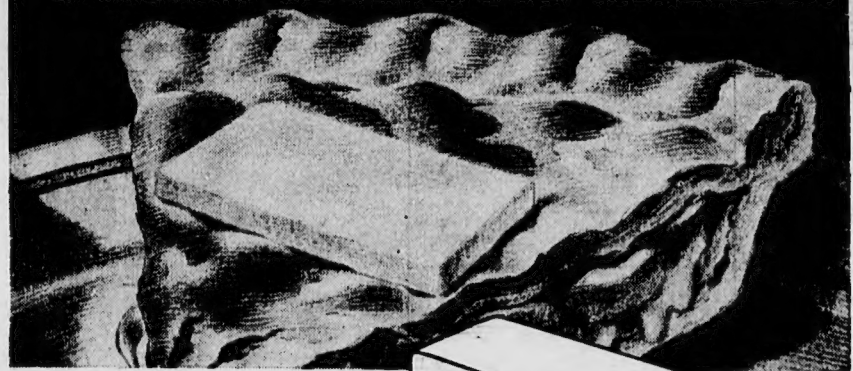

The transaction involves 110,000 acres of irrigable land, of which 57,000 acres now is irrigated. Development of the remainder for irrigation will begin in 1951. Prairie farm rehabilitation officials said.

Purpose of the project is to provide irrigated land for re-settlement and rehabilitation of drought hit Alberta and Saskatchewan farmers.

AREA CUT IN HALF

In 1883, a volcanic eruption on Krakatau, an island between Java and Sumatra, cut the area of the island in half

Delicious INGERSOLL CHEESE...

... lifts your good apple pie right out of this world!

Surprising what Ingersoll Rideau will do—even for the best apple pie (like yours!) That scrumptious mild Rideau flavor seems just made to go with apples. Wonderful on sandwiches and crackers, too—spreads and tastes so am-o-o-th! And specially good for hot cheese dishes... melts quickly, evenly.

Be sure to ask for Ingersoll—a wonderful choice of 7 enticing cheese types and flavors!

—By Les Carroll

Yummy! Chelsea Bun Loaf

A treat you can make easily with new fast DRY Yeast

Now you have Fleischmann's Fast Dry Yeast, forget about the oldtime hazards of yeast baking! Always at hand—always full-strength and fast rising! Keep a month's supply in your cupboard! Make this delicious Chelsea Bun Loaf—cut in slices for buttering, or separate the buns.

CHELSEA BUN LOAF

Make 3 pans of buns from this one recipe—dough will keep in refrigerator for a week.

Scald $\frac{3}{4}$ c. milk, $\frac{1}{4}$ c. granulated sugar, $\frac{1}{2}$ tsp. salt and $\frac{1}{4}$ c. shortening; cool to lukewarm. Meanwhile, measure into a large bowl $\frac{1}{2}$ c. lukewarm water, 1 tsp. granulated sugar; stir until sugar is dissolved. Sprinkle with 1 envelope Fleischmann's Royal Fast Rising Dry Yeast. Let stand 10 mins., THEN stir well. Add cooled milk mixture and stir in 1 well-beaten egg. Stir in 2 c. once-sifted bread flour; beat until smooth. Work in $\frac{1}{2}$ c. once-sifted bread flour. Knead on lightly-floured board until smooth and elastic. Cut off $\frac{3}{4}$ of dough, knead into a smooth ball, place in greased bowl, grease top of dough, cover and store in refrigerator until wanted. Shape remaining $\frac{1}{4}$ of dough into a smooth ball, place in greased bowl, and grease top. Cover and set in warm place, free from draught. Let rise until doubled in bulk. Cream 3 tbs. butter or margarine and blend in $\frac{1}{2}$ c. brown sugar (lightly pressed down), $\frac{1}{2}$ tsp. ground cinnamon and 3 tbs. corn syrup; spread about $\frac{1}{2}$ of this mixture in bottom of a greased loaf pan ($8\frac{1}{2}$ " x $4\frac{1}{2}$ ") and sprinkle with pecan halves. Punch down risen dough and roll out into an 8" square; loosen dough. Spread with remaining sugar mixture and sprinkle with $\frac{1}{2}$ c. raisins. Loosely roll up like a jelly roll. Cut roll into 6 slices. Place in prepared pan. Grease top. Cover and let rise until doubled in bulk. Bake in moderate oven, 350°, 25-30 mins. Let stand in pan for 5 mins. before turning out.

OUR COMPLETE SHORT STORY—

HIGH TIME, HIGH FASHION

By Bertha Zelda Beck

Bill Forgot To Be Gentle. He
Forgot Everything Except Her
Anger And His Love.

BILL wanted to push his way through the mob on the floor and take Kitty into his arms and make her say she'd marry him. The band was working on a rumba and the air rocked in rhythm. Kitty wore one of those off-shoulder strapless gowns. She was dancing with a guy named Edward.

Kitty was really a nice, sensible, serious-minded girl. She hadn't believed him when he had proposed last night. How did a fellow get a girl to say yes?

One of Bill's friends, with a sister on his arm, was bearing down with intentions. Bill adroitly dodged and cut in on Edward.

"Oh," Kitty said. "You." "Surprised?" "Deeighted." There was the old note of anger. She stiffened, drew away, and for the first time he really noticed her dress.

"What makes it stay up?" he said. "What makes what stay up?" "The dress—on you."

"It's wired." "Wired—for sound?" "Bill!" The fresh pink in her cheeks was anger again.

"I'm sorry. I didn't mean—" "Of course not."

The trombone wailed and Bill started out over the heads of the dancers. "You thought I was acting—last night, did you, Kit?"

"Oh, no! You couldn't act, not you, Bill. The serious young man, acting? Coming up to me, out of the clear air, in the park, frightening the dog I was walking, and saying in your polite voice, 'Kitty, will you marry me?'"

"And the answer?" "Still the same." She kept her face averted.

"All right, I have nothing to lose. I'm going to tell you just what I think of you."

"You wouldn't dare." "That dress you're wearing..." "Leave my dress out of this!"

"If I had a wish, I'd wish that the thing that makes the wire stay up would sn—" "I'd die!"

"Not before I could tell you I loved you. I wouldn't let you die that fast! You are a potential power—for destruction."

"I never—" "Or for good. I'd prefer the destruction, since you were going to die on my hands anyhow, with that thing down and everybody calling it high fashion! Like pictures showing how little girls will be wearing next year!"

She was glaring at him. "The wire is guaranteed not to come down until it's unhooked." She shrugged her shoulders vehemently. The strapless thing that had seemed so provokingly perfect was suddenly no longer perfect. The hook and eye—

parted. She could feel the broken point eye prod her skin. She could feel the tears mounting.

She leaned close. "I wouldn't marry you if the whole world—Oh, Bill, what will I do?"

"Kit," he said gently. "What do you want me to do?" "You always make me so unhappy. I could—"

"Kit," he said, his voice firm for the first time with her, as firm as it was with everyone else. "Listen closely. It's high time I treated you like a human being, and not like a china doll the way I have, off my nut with loving you. Your gown is high fashion. You are going to take my arm, as soon as this dance ends, and we are going to walk to the lounge where you'll get the matron to sew you together. If you keep your temper, your dress will stay up. But if you let yourself go, I'll be right behind you, ready to signal a photographer."

The lights were dim now. "You're beautiful," he whispered. "And I love you. Are you listening?" "Yes."

He picked her off the floor then, and held her so close she could hardly breathe. She kicked and one of her toeless, strapless shoes fell off. "Let me down!"

He kissed her firmly on the lips, and he forgot to be gentle. He forgot everything except her anger and his love.

He somehow had not expected her kiss. He put her back on her feet. "You shouldn't have done that," he said. "You'll never be the same again."

She was clinging to him. "And you?" "How can a fellow be the same when there's high fashion and a girl's wired and there's a short? Go get yourself sewed together. And I'm not taking no for an answer. It's high time..."

It was and she gave it to him. "Yes." (Copyright Wheeler Newspaper Syndicate)

Canada's Honey
Crop Shows Drop

OTTAWA.—Canada's honey crop totalled 30,717,000 pounds, below average, this year, due mainly to a decline in average production for each colony, the bureau of statistics reported.

The 1949 crop was 33,204,000. Average production in the five years, 1945-49, was 34,326,000 pounds. Average yield for each colony fell from 66 pounds to 61 pounds.

In Manitoba, however, the honey crop stood at 6,282,000 pounds against 5,586,000 in 1949.

Firing Guns Fail To Spoil Appetite

A lull during a bombardment by H.M.C.S. Athabaskan of enemy positions off the west coast of Korea gives four members of one of the Canadian destroyer's gun crews a chance to relax. Left to right are: O.S. James Cree of Bounty, Sask.; O.S. Charles Algate, Cardinal, Ont.; O.S. Anthony Sutton, Marshall, Sask., and L.S. William Glover, Calgary.—Central Press Canadian.

Rumor Of Army
Buttons Being
Concentrated Food

CHURCHILL, Man.—There'll be some cracked teeth and aching tummies if the army at Fort Churchill tests the latest rumor.

New parkas issued this year have nine white buttons. The rumor has it that they're concentrated food—that one button makes a meal and the nine will keep a man going three days.

But it's just an idle rumor, says prairie command headquarters at Winnipeg.

The buttons are really made of bone.

Manitoba Wheat
Yields And Grades
Showing Good

BRANDON, Man.—Grades and yields of wheat, oats and barley have stood up well in late harvesting here, D. A. Brown, assistant superintendent of the experimental farm, said.

Wheat is averaging 20 to 22 bushels an acre and grading No. 3 and No. 4 Northern; oats are going 40 to 50 bushels and grading No. 1 feed; barley 28 to 35 bushels and grading No. 1 and No. 2 feed.

Rosetown 'Spiel
Open To Curlers
Everywhere

ROSETOWN, Sask.—Rosetown Curling Club's 1951 automobile bonspiel will be open to curlers everywhere. The 'spiel will be held Jan. 15 to 21.

In previous years, Rosetown limited its entry to Saskatchewan curlers and those resident in provincial border towns such as Flin Flon, Man., and Lloydminster and Alasko on the Alberta border.

The prize list will again total \$15,000 and the first prize would be four 1951 model cars of different makes.

Mental illness is a sickness of the mind, no more to be ashamed of than any sickness of the body, states the Department of National Health and Welfare. Many cases of mental disturbance can be cured if treated immediately at the onset.

CAN YOU BEAT THIS?

WEYBURN, Sask.—Out at Amulet, Sask., they really grow the potatoes.

A sample weighing three pounds has been put on display in a Weyburn office window. Grown by J. W. Daley, Amulet, the spud is of the "Bliss Triumph" variety and measures 20 inches around, end over end.

Keystone of Main Street

The towns of Canada are great places.
Our town was a fur trading outpost in the early days—now it is part of a great forest industry.

And serving that industry—and us—is the bank . . .
a branch of The Commerce. Our manager is your friend—he knows how to give the type of service that comes with long acquaintance.

Yes, our Canadian towns are great places . . . and the men and women at your Commerce branch are good people to know.

Manitoba Flood Fund Thanks Weekly Press

All Flood Victims Being Re-established

At the annual convention of the Canadian Weekly Newspapers Association held at the Chateau Frontenac Hotel, Quebec City, October 23-25, a resolution of thanks to the Weekly Newspapers of Canada was presented by the Manitoba Flood Relief Fund in appreciation of the part played by the Weekly Press in assisting in the rehabilitation of flood victims of the Red River Valley.

In presenting the resolution, at the annual banquet, attended by some 400 Weekly Newspaper editors from all parts of Canada, Cecil Lamont, Honorary National Organizer of the Manitoba Flood Relief Fund, told how total contributions to the Fund had reached \$8,775,000.00 in cash and in addition, donations in kind with a value of several hundreds of thousands of dollars, had been turned over to the Red Cross and other relief agencies for distribution to flood sufferers.

Mr. Lamont informed the editors that the following appropriation had been made from the Fund, to date:

Repair and replacement of household furnishings and effects, clothing, private automobiles, etc. \$2,500,000

Compensation for out-of-pocket living and travelling expenses of persons who were forced to vacate their homes on account of flood \$1,500,000

Aid to small businesses, market gardeners and fur farmers to cover losses of goods and inventory as a result of the flood \$1,000,000

Compensation to farmers for loss of livestock, poultry, feed, seed, grain and machinery lost or damaged \$1,000,000

A survey is now being conducted with a view to assisting churches, hospitals, private schools and semi-public institutions which do not come within the scope of governmental assistance.

As a result of the generous response from all parts of Canada, all persons who have suffered losses, other than structural damage, have been or are in the process of being compensated from the Flood Fund, and are able to resume their normal home and business lives. Structural damage to buildings is being taken care of by the Dominion and Provincial Governments. These Governments, along with the Municipalities, are now engaged in the construction of dikes to guard against future floods, where this is feasible.

The newspaper editors were informed that the total cost of raising the fund had been less than three-quarters of one per cent, which is believed to be a record low cost for fund raising. The small expenditure in raising the Fund was made possible through all services being contributed by those who took part in raising the Fund.

The resolution presented to the Canadian Weekly Newspapers Association and to this paper appears in the adjoining column.

RESOLUTION

To: The Canadian Weekly Newspapers Association

and

From: The Manitoba Flood Relief Fund

WHEREAS during the disastrous Manitoba Flood in the spring of 1950, there was evidenced a desire on the part of the citizens of Canada and elsewhere to help in some way to relieve the distress of the flood victims; and

WHEREAS it was apparent that there was no agency then in existence which could give aid in such matters as restoring losses of furniture and personal belongings of those whose homes had been flooded; and

WHEREAS it was apparent that without such aid many families would suffer crippling losses and in many cases be rendered destitute as a result of the flood; and

WHEREAS the Manitoba Flood Relief Fund was set up, under the honorary chairmanship of the Lieutenant-Governor of Manitoba, the Premier of Manitoba, the Mayor of Winnipeg, the Mayor of St. Boniface and the Manitoba Consul-General of the United States to receive contributions from those who wished to help; and

WHEREAS local funds were opened in many municipalities throughout the country, in large part through the efforts of the Weekly Newspapers of Canada, with the sympathetic assistance of the Weekly Newspapers Association and the Provincial Divisions of the Association; and

WHEREAS the proceeds of funds so collected have added materially to the magnificent total received for aid to the flood victims of the Red River Valley; and such aid going out promptly has had a great effect in maintaining the morale of the people who have suffered so grievously;

BE IT THEREFORE RESOLVED

THAT the Officers of the Manitoba Flood Relief Fund extend to the Weekly Newspapers of Canada, through the Canadian Weekly Newspapers Association in Conference in Quebec City, heartfelt gratitude and appreciation on behalf of the trustees of the Manitoba Flood Relief Fund and of the flood victims of the Red River Valley, for their heartwarming sympathy and their practical expression of it in their efforts on behalf of the Fund;

AND THAT the said newspapers be asked to extend to the citizens of their territories, the appreciation of the people of the Red River Valley for the assistance given, through the Manitoba Flood Relief Fund, for the rehabilitation of flood victims.

HERE AND THERE

Mr. and Mrs. Scotty Kier left on Monday for their home on Vancouver Island. They have been visiting at the home of Mrs. Kier's parents, Mr. and Mrs. Eli Woods for the past six weeks. While here Mr. Kier spent a lot of his time visiting friends in the Cluny area and hunting game birds. He had very good luck hunting.

The Legion rally held in Queens-town Monday evening was attended by members of the local Legion. They included Mr. and Mrs. S. Hampton, Mr. and Mrs. Bogstie, Mr. and Mrs. W. Schelle and Mr. and Mrs. Cousineau. They report that there was a splendid attendance from the Legions of the surrounding towns. At the time Legion was holding a meeting the Women's Auxiliary held their meeting in an adjoining room. After the separate meetings a general meeting of the two organizations took place. They were addressed by the provincial secretary.

Mr. Swale of Prince Albert, Sask., father of Mrs. W. Pettit died last week, the funeral taking place Wednesday afternoon. Mr. Swale was 80 years of age. Mr. and Mrs. Pettit motored to Prince Albert to attend the funeral.

Once again the Gleichen Branch of the Canadian Legion will give an annual dance in the Community Hall. The date is set for Friday, November 10, which is on the eve of Remembrance Day. The Legion boys never fail in giving a good dance and everybody will be anxious to attend. The next day the boys will stage a turkey shoot. This will be an excellent opportunity for those who like to see a roasted turkey adorning the table to get one. There will be other prizes offered. And for those who are not good shots there will be ways for them to walk off with prizes if they have a little luck.

LIFE DEPENDS ON WATER

for our use is to intercept it in the runoff, and this is the prime feature of conservation.

It is obvious that there is little use in crying for rain if we then allow it wash across our fields and make its quickest way to the sea along some river bed. Man's limited comprehension has wasted millions of acres of land, caused sharp drops in crop yields, starved cattle spread desert over the face of the earth, and devastated industrial areas.

Some persons have expressed the belief that our water supply is decreasing. Their opinion is based upon such facts as were revealed in surveys made a few years ago. Within the last 100 years between 80 and 85 percent of once permanently flowing streams have become temporary, drying up for at least part of a normal summer.

But our earth's water resources are permanent and indestructible; it is the amount available at a place or at a time that is changing. Demand is rising in response to population growth, industrial progress, and ris-

ing standard of living. Such developments as air conditioning and the spread of rural electrification create great new needs of water.

These are legitimate changes. One writer expresses the opinion that they could have been effected without damage or loss if made wisely and carefully. But by removing natural barriers we have speeded the water movement so that it does not reach the ground water reservoir. Water runs so fast across our land that it picks up soil and carries it away out of economic reach.

So, in spite of the fact that Canada is richly endowed with water resources, we have no room for complacency. We have 228,307 square miles of fresh water within our boundaries. Lake Superior, forming part of our southern border, is the largest body of fresh water in the world. We have great rivers, The Mackenzie, our longest, reaches 2,514 miles from Great Slave Lake to the Arctic Ocean; the St. Lawrence and the Great Lakes provide a shipping waterway 2,338 miles long from the Strait of Belle Isle to the head of Lake Superior, the heart of the continent. Our sea coast is one of the longest of any country in the world, with 14,820 miles of mainland sea frontage and 34,650 miles of island frontage.

Enough, one might think, to minister to all human needs. Enough to give us the moisture that dissolves the oxygen we breathe, to liquefy the food we eat so that it can be digested, enough to supply our health and industrial needs.

But look at the demands made upon it. Three hundred tons of rainfall properly used are required to grow one ton of corn, and it requires 700 gallons a day to supply the demands of every person for food and other necessities and amenities.

To bring this needed water to cities is a tremendous undertaking. Ancient Rome had eleven aqueducts bring a daily supply of 40 million gallons to its one million people. That was the same average per day as in Montreal in 1869, but today's water supply for Montreal averages 120 gallons per person per day, just about the same as Toronto's New York needs 1.2 billion gallons a day.

(To be continued)

A lean horse for a long race is a wise expression. A lean body for a long life is equally wise, because the death rate from heart disease is 50 percent greater for those who are overweight.

Having any kind of a reputation is bad. If you have a good one, people expect you to live up to it, and if you have a bad one, people expect you to live it down.
